Attachments: Files Sent 20220706.izp

Hi, Sontina,

I attached new WR and SI1 files that will hopefully fix about half of the errors I got yesterday.

Thanks,
Andi

Hi, Sontina,

I attached a zip file, renamed izp, with the current biennial report files. As I mentioned on the phone, there are 406 errors in the files, so I will start working on correcting those. I don't recall us having to submit preliminary files in the past, but perhaps I'm not remembering past years correctly. I'll try to get you corrected files as soon as possible. Please let me know if you need anything else until then.

Thanks,
Andi

Hi, Sontina,

I'll work on sending you the files this afternoon. We're likely to have some gaps since I haven't been able to start on any error correction yet, but I'll send you what we have that doesn't have any errors. The WR files should at least be in good shape.

Thanks,
Andi

Andi,

Would you be able to send me files to upload whatever you have at this point? The national data will be skewed without any data from Texas. I'd much rather submit what you have, even without the stragglers, then forego submitting any data at all. I know today is the deadline but I can probably buy some time to get some initial data in. Please let me know.

Thanks,
Sontina

Hi, Sontina,

Yep, since Brandy left, I'll be doing it again this year. I'm working on getting the reporting for some stragglers in. I hope to have the files ready by the end of July, but I definitely won't have any preliminary data ready by 7/1. Please let me know if you need anything from me for BR before I send you our final files.

Thanks,
Andi

Hi Andi,

Hope this e-mail finds you well. I forgot to follow up with you on BR. I noticed in the e-mail chain regarding the HSW data last week, you stated that Brandy was no longer with TCEQ. Are you back dealing with BR or is there someone else I need to contact about it? Please let me know.

Thanks,
Sontina
